Guidelines

The purpose of the Prayer Requests sheet is to invite our church family to seek God together, not broadcast the details of our situation. God knows our situation and needs. We encourage you to pray within your own ministry or fellowship group if you have more extensive or detailed requests.

• Please do not submit a request for someone else without their permission. Only include information the person is comfortable sharing publicly.
• Please consider whether the personal information you shared is suitable for public knowledge.
• Limit requests to yourself or close family members as much as possible.
• For urgent prayer requests, please contact one of our pastors or the church office. Urgent prayer requests may be announced orally at prayer meetings.
